INTERNSHIP

Learnlogicify Technologies - Webdeveloper intern
Jun 2025 - Jul 2025
Completed an internship at LearnLogify Technologies, gaining hands-on experience in basic web development using HTML and CSS.

iStudio - Human Resource Management
Jan 2026 - Feb 2026
Completed an internship at iStudio for Human Resource Development. Gaining hands-on exposure to HR processes and professional workplace practices.

PROJECTS

Billing and Inventory Management System
Developed a billing and inventory management system to track products, manage stock levels, and generate invoices efficiently. Designed a structured database/file handling system to maintain transaction history and ensure accurate stock updates..

Handwritten Text Recognition System
Developed a handwritten text recognition model using Python with image processing and machine learning techniques. Trained the model on labeled image datasets to convert handwritten characters into digital text.

To-Do List Web Application
Developed an interactive To-Do List application using HTML, CSS, and JavaScript to manage daily tasks efficiently. Implemented features to add, delete, and mark tasks as completed with dynamic DOM updates
